

*"I Never Imagined..."*

"I never imagined just three years ago sitting in the desks at CVCS (Cumberland Valley Christian School) that I would be where I am today.

In May 2009 I graduated from Penn State with an associate's degree in nursing and in July, I passed State Boards. I am now a registered nurse.

Looking back, I am even more grateful for what CVCS has prepared me for in my life today. The investment the teachers at CVCS make has tremendous profit in the future.

In addition to parents who instilled Godly values in me all my life, CVCS has no doubt molded me into the person I am today and the person I am becoming. I am ready to defend my beliefs and values, and quite stubbornly might I add thanks to the class "Understand the Times! People do look at me like I have five heads, but Jesus told us to expect that, right. This world is not our home!

I encourage you not to be dishearten in the ministry at CVCS because you are equipping today's children to grow up to be adults that will minister to a disparaged world. Thank you for investing in me and every student who has ever attended. You may never know the impact."
